

# Shared Care

Holistic  
care for  
patients

**Enhancing collaboration between GP and external  
care providers to deliver a holistic care journey**

Simplify healthcare with Manage My Health's Shared Care.

Centrally managed  
care plans

Invite healthcare  
providers to collaborate

Ensure  
continuity of care

Synchronise  
patient records

## Create customised patient care plans

From our secure cloud, healthcare providers can access and contribute to the patient's shared electronic health record (SEHR), health assessments, care plans across multidisciplinary care teams, case conferencing and relevant resources

Shared Care locality operating model caters for multidisciplinary teams such as GPs, midwives, Allied Health professionals, pharmacies, hospitals, mental health professionals, nominated whānau/family representatives, and beyond

Access to comprehensive health record including medications, allergies, immunisations, conditions, lab results, observations, GP consultation notes, shared notes and recalls

Enables healthcare providers to create customised care plans that meets the needs, concerns, beliefs, and goals of an individual

Care plans can be templatised enabling faster creation of care plans and enabling access between providers, facilities and inviting external providers to the care team

Secure and configurable, allowing setup of Care Coordinators, Providers and Facilities by the Systems Administrator

## Manage My Health's Shared Care model can support:

Primary Health Organisations

Hospitals

Pharmacies

Palliative care

Age residential care

District Nursing services

Clinical Nurse specialists

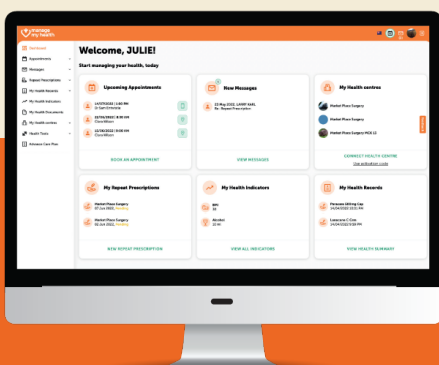

Maternity Care providers

Social Services/ Whānau Ora providers

Community health workers
