# Partnership program

Introducing Manage My Health Connect, our healthcare innovation partnership program in the Manage My Health ecosystem. Create apps that seamlessly integrate, enhancing user experiences and driving growth to the ecosystem. Leverage Manage My Health Connect to build value-added services, catering to consumer needs with added functionality and convenience. Join us to drive innovation, deliver new product and services to Manage My Health users, and shape the future of healthcare technology in New Zealand.

## Developer-Friendly Portal

A centralized hub for exploring Manage My Health Connect's functionalities, detailed documentation, sandbox environments for testing & development. Grants an easy access to API documentation, tools & resources.

## Flexible Pricing Tiers

Flexible pricing tiers to accommodate different application requirements. Choose a plan that aligns with your specific needs and budget, ensuring a fair and scalable cost structure as you build and grow your applications.

## Consent Model

Access User Data with Consent leveraging Manage My Health Connect's consent model to ensure users have control over their data. Build applications that utilize consented data to provide personalized and tailored user experience.

## Safe & Secure

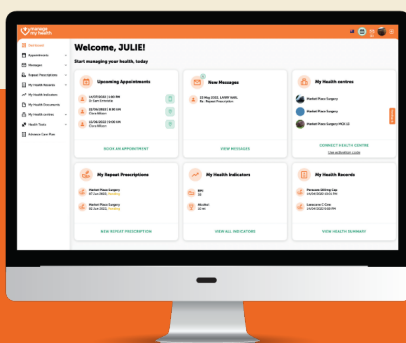

Build solutions using industry-standard protocols like OAuth 2 and OpenID Connect to ensure secure authentication and authorization providing developers with a reliable and trusted framework for their applications.

## Efficient Collaboration and Enhanced Data Security

- Access health records
- Seamless integration with Web & Mobile Apps
- Enables single sign-on from Manage My Health to the third-party application
- Enables exchange of health information securely based on FHIR standards
- Compliance with privacy and security protocols
- Access to sand-box environment to test APIs
- Inbuilt usage monitoring, billing and reporting functions
